

PROJECT REPORT ON EDUCATION

RASHTRIYA SURKSHA EVAM SEVA TRUST

**“BE EDUCATED, BE A GOOD
ACHIEVER.”**

INTRODUCTION

It is estimated that over **400,000 children** currently live on the streets of India. Without financial support or parental care, these children are forced to survive by doing odd jobs. Many resort to unsafe and illegal activities such as pickpocketing, stealing, or even prostitution. Their lives are filled with insecurity, abuse, and exploitation. One of the most significant losses they suffer is the **lack of access to education**, pushing them into cycles of **drug abuse, crime, and poverty**.

To address this urgent issue, **Rashtriya Surksha Evam Seva Trust (RSET)** was established in **2020** by **Mr. Ramanuj Singh, Miss Shilpy Singh, and Mr. Sandeep Rawat**. The Trust is committed to the **rehabilitation of street children** across India by providing **food, shelter, education, vocational training, and a supportive family environment**.

Our journey began by inviting a group of street children to participate in a theater play. That experience opened a door to transformation—for them and for us. It proved that with compassion and opportunity, lives can be changed.

OBJECTIVES OF THE TRUST

Rashtriya Surksha Evam Seva Trust is dedicated to improving the lives of marginalized children through:

- **Basic Needs:** Providing nutritious meals, clean clothing, and safe shelter.

- **Education:** Offering both formal and bridge education to bring children back to school.
- **Vocational Training:** Enabling skill-building for self-reliance.
- **Emotional Support:** Delivering counseling to help heal from trauma.
- **Creative Development:** Encouraging participation in music, dance, and drama to nurture talent.

Our dedicated team of counselors, volunteers, and staff members work to **rebuild trust, confidence, and purpose** in the lives of these children. Whenever possible, we also strive to **reunite them with their families**.

NEED FOR THE PROJECT

The key motivation behind this project is the **urgent need to provide free and inclusive education** to underprivileged children—especially those who have dropped out or never enrolled in school due to poverty.

The high cost of private schooling remains out of reach for many families. This leads to:

- Rising school drop-out rates
- Increased vulnerability to exploitation
- A continuation of generational poverty

To combat this, the Trust seeks to:

- **Establish free community schools**
- **Run bridge education programs**

- Offer residential care for child laborers and homeless children
- Rehabilitate and reconnect children with their families

OUR MISSION

- To uplift the **educational infrastructure** in rural and backward areas.
- To provide **digital learning resources** and modern classrooms to bridge the urban-rural divide.
- To promote **value-based and skill-oriented education** for underprivileged children, leading them toward **dignity, self-dependence, and responsible citizenship**.
